

CLERKENWELL DESIGN WEEK

Our Overview

Celebrating its 9th year in 2018, Clerkenwell Design Week continues to bring a hive of energy and excitement to the EC1 postcode during the 3-day event that sees leading UK and international brands and companies presented in a series of showroom events, exhibitions and special installations.

The team in the Elite showroom were ready to reveal the new products and finishes we had been developing over the last year.

The launch of **Tempo**, our latest concept for ergonomic seating, was quick to catch the attention of our visitors at Clerkenwell Design Week. Designed with the intention of being different, Tempo combines sophistication and comfort to deliver an elegant task chair.

Alongside the launch of **Tempo**, **Bob** and **Salto**, visitors were treated to a preview of designs that will be launched throughout 2018. These included **Kouch**, **Lusso**, **Pablo** and **Ultimo**.
